

Hello! It's nice to meet you. I'm here to help you with your backend career. Since we just started, I don't have much to go on, but I'm excited to learn more about you and your goals.

To get started, could you tell me a bit about yourself? What are your interests and aspirations in the backend field? What kind of role or industry are you hoping to work in?

Also, I see that your resume and job experience are currently empty. We can work on building those together as we chat. What's your current level of experience in the backend field? Are you just starting out, or do you have some experience already?
